

## Material Printing Guidance

Please see below for guidance regarding printing materials. Most of the ancillary materials will last longer if they are printed on card stock and laminated. All materials that use color to differentiate particular spelling patterns for sounds should be printed in color.

- Big Books: can be projected instead of printed
- Teacher Guides and Student Workbooks: 8.5 x 11, portrait (Student Workbooks can be printed by each individual teacher as they plan and prepare each unit. All workbook pages may not be needed for every classroom or student.)
- Student Decodable Readers: 8.5 x 11, color, can be bound
- Blending Picture Cards: 8.5 x 14. These can be printed in a landscape format front to back.
- Large Letter Cards: 8.5 x 11. These can be printed on regular paper and kept inside of plastic sleeves for “pop-out chaining” exercises.
- Small Letter Cards: choose “multiple”, “custom”, “pages per sheet”, “3 by 2” when printing from Adobe and 6 cards will print on each page. Card stock is best for these as students will use them frequently. They will have to be cut apart and each child needs their own set. Laminating these might be helpful. You can also use things like letter tiles or plastic magnetic letters. Student will use the letters inside their Student Chaining Folders to build words.
- Kindergarten Student Chaining Folders: 8.5 x 11, these could be glued inside a Manila folder and laminated for durability and longevity
- Sounds Cards and Sound Poster: print the Sound Posters on 8.5 x 11, landscape, then the Sound Cards can be printed 2 per page by choosing “multiple”, “custom”, “pages per sheet”, “1 by 2” when printing from Adobe. The Sound Cards will be displayed on the Sound Posters.
- First and Second Grade Individual Code Charts: 8.5 x 11, students can keep in a folder
- Consonant and Vowel Flip Books: 8.5 x 11, landscape
- Spelling Card Set: choose “multiple”, “custom”, “pages per sheet”, “1 by 2” when printing from Adobe and 2 cards will print on each page. A separate small set will also be needed to attach to the Vowel and Consonant Flip Books- choose “multiple”, “custom”, “pages per sheet”, “3 by 2” when printing from Adobe and 6 cards will print on each page.
- Timeline Cards: 8.5 x 11, portrait
- Fluency Packet: 8.5 x 11, portrait
- Assessment and Remediation Guides: 8.5 x 11, portrait
